

EXTENDED REACH LARIAT SOLO SEAT

- Genuine distressed brown leather construction is as close to having a true western horse saddle as you can get
- Genuine cowhide is tanned and cut to produce unique leather covers; no two seats are the same
- Extends the driver's seating area by a full 2"
- The seat will break in to be supple with a distinctive appearance, further enhancing the unique appeal of the free-range leather
- Specially designed to position the rider lower and forward for better control and riding comfort
- Solo saddle is low, wide and contoured to allow the rider to securely plant feet when stopped
- Progressive-density foam and GelCore™ technology ease tailbone pressure for better circulation and comfort
- Matching pillion pads sold separately
- Made in the U.S.A.

RACE SERIES® CAMCHEST KITS FOR TWIN CAM*

- Feuling® complete camchest kits include all necessary components from top to bottom of the camchest conveniently packaged under one part
- Complete Camchest Kits include: Feuling® High Volume Oil pump, High Flow Camplate, Reaper® series camshafts, Race Series full-travel or short-travel hydraulic roller lifters, quick-install adjustable pushrods or one-piece pushrods, Timken® bearings, gaskets, O-rings, exhaust gaskets, ARP® fasteners, washers, moly paste, Loctite® and hardware
- 25-35 degree cooler engine temperatures
- 15-30 degree cooler oil temperatures
- 15-30 more pounds of oil pressure
- Quieter and smoother engine operation
- Eliminate wet sumping, blowby and oily air cleaners
- Chain Drive Conversion kits include conversion camshafts for 99-06 Twin Cam engines that updates your old mechanical style cams and tensioners to the new hydraulic tensioner system
- Chain Drive Conversion kits also include sprockets, hydraulic tensioners, chains and spacers needed for installation
- Made in the U.S.A.
- For Twin Cam Reaper® cam description and specs see pages 751-752 of the 2021 Drag Specialties FatBook

NOTE: Installation of gear drive cams will require separate purchase of S&S or Andrews 4-gear drive kit; see page 760 of the 2021 Drag Specialties FatBook.

CHAIN DRIVE CONVERSION

PART #	DESCRIPTION	SUG. RETAIL

Joker MACHINE

JOKER MACHINE

Joker Machine has a background making parts for the aerospace industry, which means the highest level of engineering skill when designing parts for your bike. Each part also has built-in true powersports passion that ensures beautiful, functional parts and accessories that look great and are built to last.

RECTANGLE FORK MOUNT LED TURN SIGNALS

- CNC-machined from solid blocks of 6061-T6 billet aluminum
- Pitch bolt mounting design for a clean look
- Can be mounted either inward or outward from the fork tubes
- Available with a black anodized or chrome-plated finish
- Super-bright amber LED lights
- 1 1/2" wide, 1/2" tall; lights are set at a 25° angle for standard HD forks
- 2 1/2" wide from center of fork tube to the end of the light
- Sold in pairs
- Made in the U.S.A.

NOTE: If being used as turn signals and marker lights, the use of an LED Intensifier Converter is required. Depending on the year/make/model of your bike a load equalizer, LED turn signal flasher or diode kit may be required. If you are unsure of what is needed, please contact Joker Machine for assistance.

HAWG HALTERS, INC.

Hawg Halters, Inc. (HHI) takes pride in making American-designed and made parts and accessories that are engineered to strict quality standards, using extensive prototyping and pre-production testing to ensure the best quality for your motorcycle. Every part is polished, then chrome or anodized-finished in-house and given a thorough quality inspection before being shipped.

0408-0407

0408-0403

3°/6° RAKED 49MM TRIPLE TREES

- Constructed of 6061 billet aluminum
- Designed to accept the original fork covers and headlight or full nacelle
- Maintain the stock look while increasing fork rake and overall wheelbase length
- 3° rake kits are typically for use with 21" or 23" front wheels
- 6° rake kit is typically for use with 26" front wheel
- Available in chrome or black finish

PART #	DESCRIPTION	SUG. RETAIL
FOR 18-21 SOFTAIL MODELS W/ CONVENTIONAL FORKS		
0408-0402	Chrome: 3°	\$749.95
0408-0403	Black: 3°	749.95

GALFER
USA

WAVE® FRONT BRAKE ROTOR

- Made from 420 high-carbon stainless Tier-1 steel
- Laser-cut, never stamped
- Individually heat-treated and double-disc parallel ground to ensure perfect flatness
- WAVE® design allows for lower operating temperatures at extreme conditions
- WAVE® design is much lighter than a stock rotor
- Available in solid-mount style

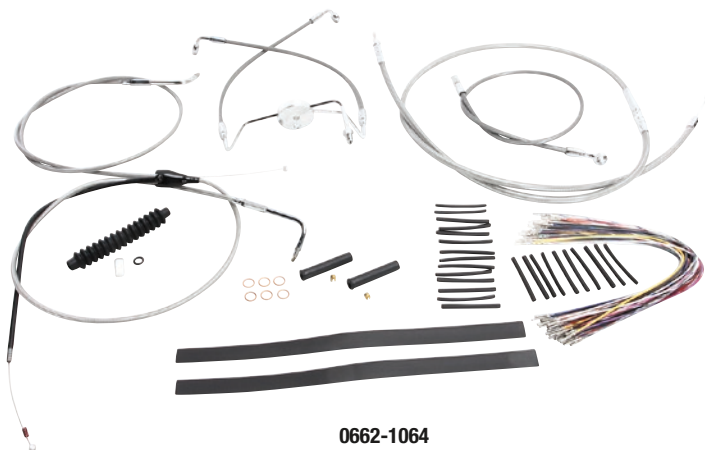

NOTE: For maximum braking performance and rotor longevity, Galfer recommends using Galfer brake pads with Galfer rotors. See page 1415 in 2021 Drag Specialties FatBook for the complete line of Galfer brake pads.

XR STAINLESS DOT HANDLEBAR INSTALLATION KITS

- Magnum XR DOT Handlebar Installation Kits offer a great fit and excellent quality at an economical price
- XR DOT Handlebar Installation Kits are available for popular ABS Harley-Davidson® motorcycles with 12" to 17" ape hanger style handlebars
- Select kits for 2018-2021 Softail and 2021 Touring models are also available with Quick Connect upper clutch cables that reuse the existing lower clutch section
- Three color combinations to complement your bike: clear-coated stainless steel with chrome fittings, black-coated with chrome fittings or black-coated with black fittings
- All cables are a low-effort, high-efficiency design that meets or exceeds all OE specifications for fitment, construction, endurance

- Magnum XR DOT brake lines use an enhanced construction of heavy gauge stainless steel embedded in tough abrasion-resistant nylon outer jacket for superior durability
- The coating on cables and brake lines offers exceptional protection for paint or chrome
- Kits that include manifolds use an all-brazed construction to ensure optimal OE fitment and appearance
- Manifolds use AN-3 connections for an easy installation
- Kits include Throttle-By-Wire extensions, clutch cable, XR DOT brake lines, copper crush washers, hardware, fully terminated turn signal and switch wiring extensions
- Brake lines are compliant with all DOT FMVSS-106 Specifications

Note: Kits are based on using ape hanger style handlebars and 2" risers (except Touring models).

REVO-A ADJUSTABLE M-EIGHT SOFTAIL COIL SUSPENSION

- All new Revo-A coil design for the M-Eight Softail
- Revo-A coil provides improved plush ride quality, control and resistance to bottoming out
- Provides optimum rebound performance that can be fine-tuned for any given rider weight, personal ride preference or personal riding style
- Adjustable preload for rider set up, also allows for minimal pre-load adjustment when changing between rider's weights and loads
- Seven external knob adjustments allow fine-tuning of rebound utilizing needle valve technology to adapt to your riding style
- Low friction sleeve bearings both top and bottom for ease of installation; this also allows the shock to float in its mount and avoid shock bind
- Hard anodized, machined billet aluminum 46mm mono tube utilizes a lightweight high flow piston design for improved fluid flow resulting in unmatched handling and bike control
- Hard chromed shaft is 14% larger for increased strength
- High-quality chrome-silicon spring for consistent spring rate for the life of the motorcycle
- Internal floating nitrogen piston ensures consistent damping performance
- Deflective disc valving self-adjusts to frequency and ensures controlled performance
- Legend's durable and low friction sealing system and sliding bearings provide improved performance and feel
- Available in Black Type III hard coat anodize
- Easy installation and adjustment replacing the stock shock and mounts with original OEM hardware
- Sold as Mono Shock (one shock only)
- Preload wrench included
- Designed for optimum performance with the Legend Axeo front suspension
- Made in the U.S.A.

NOTE: Heavy-duty applications are recommended for 350 lb.+ rider and passenger total weight. Also consider heavy-duty if the majority of your riding is two up with a passenger and/or gear.

1602-1413	Chrome	159.95

FORGED BILLET Y-SPOKE RIMS

- All rims are CNC-machined from radial forged 6061-T6 aluminum for maximum road durability and strength-to-weight ratio
- Features a rolled rim lip for the custom look and detailed CNC machine work from the center of the hub to the edge of the rim
- Rims can be used on both front and/or rear applications when correct hub kit is installed (sold separately)
- Rims accept Arlen Ness hub kits (sold separately), which allow full wheels to be assembled in minutes with basic tools
- Structurally tested to meet or exceed DOT, JAS and TUV international load ratings

NOTE: Arlen Ness hub kits must be purchased separately to install. Please see the 2021 Drag Specialties FatBook or the Drag Specialties/Parts Unlimited Indian catalog for required hub kits.

INVERTED SERIES 10-GAUGE AIR CLEANER KITS

- CNC-machined from forged billet aluminum
- Forged billet air filter covers feature exposed design and a CNC inverted top that acts as a velocity stack to help pull in more airflow
- Forged billet aluminum backing plate features Big Sucker™ hidden breather technology and a radius air inlet for smooth airflow
- Hidden breathers are O-ringed at the heads and exits at throttle body/carb to create a virtually closed-loop system
- No external hoses or hardware needed
- Black stainless steel jacketed inverted filters feature an inverted pleated top and 360° of pleated sides to pull in filtered air from every angle
- Performance filters feature a black synthetic filter element wrapped in a stainless steel jacket
- Filter is water-resistant, eliminating the need for a rain sock
- Made in the U.S.A.

NOTE: Exempt per CARB Executive Order (E.O.) # D-639-9 for 2001-2021 EFI models only.
